Australia: planning your study application

Admission and visa are separate decisions

A university offer does not by itself guarantee a visa. First confirm the exact programme admission conditions and deadline; then follow the current immigration route and evidence requirements for your nationality and circumstances.

Study planning checklist

- Check the CRICOS registration of the course/provider.
- Compare total tuition and city-level living costs.
- Check scholarships and English/admission requirements on the provider's official page.

After arrival

- Keep CoE and visa grant information accessible.
- Complete provider orientation and enrolment.
- Maintain OSHC and satisfy course/enrolment requirements.
- Check current work-hour and visa conditions directly with Home Affairs.

Before submitting your visa application

- Check passport validity and identity details.
- Use the latest official application form/process for your country of residence.
- Make sure names, dates and education history are consistent across documents.
- Keep copies of submitted forms, receipts, appointment confirmations and supporting evidence.
- Check whether documents need certified translation and whether originals must be presented.
- Review the exact visa conditions after grant before travelling.
